English | Urdu

PROFILE SUMMARY

Front-End and Web Developer focused on building responsive, practical and user-friendly digital experiences. Strong foundation in HTML, CSS and modern JavaScript, with hands-on work across React.js, WordPress, WooCommerce, PHP, MySQL and Firebase. Comfortable turning requirements into working interfaces, integrating data, debugging existing projects and continuously improving development skills.

EXPERIENCE

WAREHOUSE SUPERVISOR — FT-Grow

Approx. 1 year • Warehouse operations • Inventory supervision

WEB DEVELOPMENT INSTRUCTOR — DigiTech Academy

Approx. 3 months • HTML • CSS • JavaScript instruction

FREELANCE WEB DEVELOPER

Web Development • WordPress • Client Projects

Develop responsive websites and custom web interfaces for practical client requirements. Work with WordPress and WooCommerce, customize themes and page layouts, integrate databases and APIs, troubleshoot issues, and improve existing websites for usability and reliability.

SELECTED PROJECTS

STOCK MANAGEMENT APP

Android • Firebase

Inventory management workflow with product records, quantities, dates and cloud synchronization.

BUSINESS WEBSITES

WordPress • Elementor

Professional websites for businesses with responsive layouts and customized sections.

FAMILY TREE WEB APP

PHP • MySQL • JavaScript

Database-driven family management application with authentication and structured records.

E-COMMERCE WEBSITES

WordPress • WooCommerce

Responsive online stores with product catalogs, shopping flows and business-focused layouts.

INVOICE MANAGER APP

Android • Online Sync

Invoice, order, payment and confirmation workflow designed for real-world business use.

RESPONSIVE PORTFOLIO SITES

HTML • CSS • JavaScript

Modern responsive interfaces focused on clean presentation and usability.

DEVELOPMENT FOCUS

- Front-end development & responsive UI
- JavaScript application logic & DOM interaction
- React.js component-based development
- WordPress, Elementor & WooCommerce
- PHP/MySQL database-backed applications
- Git/GitHub version control workflows
